INNOVATIVE INFORMATION DISPLAY SOFTWARE

INDUSTRY PRICE LIST as of November 1, 1987

INFO/SOFT 7000 - HIGH RESOLUTION GRAPHIC SOFTWARE (\$489 LIST) \$ 399

High Resolution Graphic Software Cartridge for the Atari 130XE computer. Features digitized graphics plus standard character graphics and text in a variety of styles. Includes a volume of satellite programmer logos (ESPN, CNN, DISNEY, etc) that you can use to promote your cable tv services.

INFO/SOFT 5000 - GRAPHIC SOFTWARE \$ 399

Provides 120 pages of standard character graphics and text when used with an Atari 130XE; 40 pages when used with an Atari 65XE or 800XL.

INFO/SOFT 3000 - TEXT ONLY SOFTWARE \$ 299

When you don't need graphics and cost must be kept low, this software cartridge provides 40 pages of text in two styles. Same easy-to-use and learn features that make the 5000 and 7000 a joy to use. Works with the Atari 130XE, 65XE, and 800XL computers. And, it works with our 6080 VCR controller and 6101 Temperature options, too!

VCR CONTROLLER - #6080 \$ 399

Controls a single VCR. Puts 'PLAY' 'STOP' 'REWIND' and 'RECORD' functions under the computer's control. Also, has a built-in Stereo Audio/Video switch and auxillary control functions. Works with all current INFO/soft cartridges.

TEMPERATURE DISPLAY OPTION - #6101 \$ 199

Interface plugs into your Atari computer and the probe is mounted outside. Displays the current temperature, the highs and lows and the times that they occur. Temperatures are shown in both Fahrenheit and Celcius. Use it with your INFO/soft 3000, 5000 or 7000 software.

RS-232 ELECTRONIC INTERFACE - #RV2 \$ 60

Provides industry standard RS-232 port on the Atari computer. Use with Hayes or 100% Hayes compatible modems for remote operation. Allows two or more computers, each equipped with an INFO/soft cartridge, to communicate with one another.
